PRO a GENDA.com

Take the next step in your golf business.

Your hub to automate and optimize your academy.

ProAgenda.com Features

Unlimited bookings 24/7

Receive online bookings 24/7 on your personal booking page and manage your business from your own state of the art booking system.

Client database

Manage all client's data, bookings, coaching, and packages directly from the client database.

Confirmations and reminders

Reduce no-shows with automatic email confirmations and reminders from bookings. Text reminders are optional.

Online payments

Get paid upfront with online payments through Stripe. Decide if you allow or oblige your clients to pay directly for online bookings.

Packages

Create discount packages or subscriptions for your clients, track their bookings, and remaining minutes in one click.

Vouchers/Coupons

Create vouchers or coupons for one time use or a specific period.

Coaching

Build your clients coaching portfolio by adding video's, photo's, images, or launch monitor data.

Messages

Send individual, group or broadcast messages to your clients directly through the system.

3rd party integrations

Multiple integrations Synchronize bookings with Google or Outlook calendar and vice versa. Share all your client details with your Mailchimp account.

Client app

Easy access for your clients to your agenda with the ProAgenda.com client app.

OUR BOOKING PLATFORM

More than an agenda.

OUR ACADEMY PLATFORM

Step up your game.

Connect and share
The academy platform connects the individual agendas and makes it possible to link up clients, lesson types, packages, and more.

One academy booking page
The booking page showing the availability of all agendas on one booking page allowing an easy and professional overview for your clients.

Branded booking site and communications
Remove the ProAgenda.com logo and customize and brand the booking site(s) and all outings.

Front office booking tool
Create, edit and cancel bookings in one click with the dedicated reception tool.

Reporting
Get extensive reporting from all pros and bookings within your academy. Financial reports, package reports, booking reports etc.

Coaching feed
Create a media feed accessible for all your clients. Create instructions and other coaching videos and share them with your clients.

Custom emails
Send all automated emails from your own academy email address and customize all emails to your own liking.

Any questions?

Please let us know, we are happy to answer all of your questions.

Extensive resource system

Create resources with limited availability like Launch monitors, fitting studios, and prevent them from being double booked.

Bay/simulator reservations

Transform your indoor studio or driving range into a complete online booking hub where you do not have to worry about double bookings.

Personal mobile app * coming soon

Get your own academy branded app for your clients to make bookings, check their coaching portfolio and much more. This feature will be available soon.

Online academy payments

Link one online payments account to all transaction within your academy, making sure all online payments go through one place.

Head pro login

Access and manage all agendas as head professional or academy owner from one place without remembering multiple logins.

Logbook

Full logbook with all actions from clients, pros and academy users, making it easy to follow activity within the academy.

Coaching

Build your clients coaching portfolio by adding video's, photo's, images, or launch monitor data.

Extensive user configuration

Create multiple users and set different access policies.
